Relieving Principal's Report

Hi Faulconbridge Families,

What a great start to the final term of the year. The teachers have hit the ground running in their rooms and setting those High Expectations that we have as teachers of your kids. I will be releasing more information around high expectations and what that means for your child, the school and the wider community, so keep your eye out on SENTRAL.

Stage 3, what an excellent time you had at your school camp at Collaroy. The teachers and the staff at Collaroy couldn't speak highly enough of our students, so well done. Stage 2, it's your turn next week, so enjoy!

Keep an eye out on SENTRAL for term 4 updates and dates because term 4 is always a big one.

As Mathematics is my passion, I have a few more problems to get that brain matter moving. Enjoy!

Mr Pyne's Problem Power

Comparing Measurements: Cassandra's ruler is 22 centimetres long. April's ruler is 30 centimetres long. How many centimetres longer is April's ruler?

Contextualizing Measurements: Picture a school bus. Which unit of measurement would best describe the length of the bus? Centimetres, metres or kilometres?

Adding Measurements: Micha's dad wants to try to save money on gas, so he has been tracking how much he uses. Last year, Micha's dad used 100 litres of gas. This year, her dad used 90 litres of gas. How much gas did he use in total for the two years?

Subtracting Measurements: Micha's dad wants to try to save money on gas, so he has been tracking how much he uses. Over the past two years, Micha's dad used 200 litres of gas. This year, he used 100 litres of gas. How much gas did he use last year?

Warm Regards,

Chris Pyne
Rel. Principal
